CLAIM SCENARIOS

Unauthorized Access

An international computer hacking group gained access electronically to the computerized cash registers of a restaurant chain and stole credit card information of 5,000 customers, starting a flood of fraudulent purchases around the world.

Human Error

An employee of a private high school mistakenly distributed via e-mail the names, social security numbers, birthdates, and medical information of students and faculty creating a privacy breach. Overall, 1,250 individuals' personal information was compromised.

Theft of Digital Assets

A regional retailer contracted with a third party service provider. A burglar stole two laptops from the service provider containing the data of over 800,000 clients of the retailer. Under applicable notification laws, the retailer - not the service provider - was required to notify affected individuals. Total expenses incurred for notification and crisis management to customers was nearly \$5M.

Privacy Breach

An employee of a rehabilitation center improperly disposed of 4,000 client records in violation of the center's privacy policy. The center settled the claim with the state of Massachusetts and agreed to pay fines and penalties as well as extended \$890,000 in customer redress funds for credit monitoring on behalf of the victims.
