* Rate of commission is based on total premium written through MIBS.

** RTC - Refer to company

General Conditions:

- Company procedures and records apply to commission payments.
- The rates of commission displayed for Commercial Lines Products do not apply to the products written in the Business Units specifically listed above or to the following:
 - Any risks with total account annual premiums over \$50,000
 - Policies written through underwriting pools and associations, mandatory or voluntary placement programs and assigned risk programs
 - Workers' Compensation policies written on a deviated basis, under an open rating plan contemplating special commissions or a special method for computing or paying commissions
 - Premiums for exposures in any other state with a special schedule of commissions
 - Any policy or coverage where a different commission is mutually agreed upon
- The above commission schedule does not apply to Direct Bill installment charges.
- A weighted average commission is calculated for policies written on a multi year basis.
- This supersedes any existing commission schedule.
